

Leah — Transit Report

September 10, 2026 through September 18, 2026

Prepared by Dennis Fried

Voice: V3.2 Direct

Type: Projector | Profile: 1/3 | Authority: Splenic | Definition: Single | Cross: Right Angle Cross of Tension (39/38 | 21/48)

Thursday, September 10, 2026

Transit Influences. Uranus 20.6 against hanging 57 holds Channel 20–57 the Brain Wave — a design of penetrating awareness. In plain terms: intuition wants to reach the voice now. Jupiter 7.3 against hanging 31 holds Channel 7–31 the Alpha — a design of leadership. In plain terms: direction wants a sentence. Mars 53.5 against hanging 42 holds Channel 42–53 Maturation — a design of starting and finishing. In plain terms: a cycle wants to close. Neptune 25.6 against hanging 51 holds Channel 25–51 Initiation — a design of needing to be first. In plain terms: shock wants to go first. North Node 30.6 with Pluto 41.2 against hanging 30 holds Channel 30–41 Recognition of Feelings. In plain terms: a borrowed feeling-story lands on open Root and open emotions. That story is not Splenic authority. Mercury 46.3 with South Node 29.6 against hanging 29 holds Channel 29–46 Discovery inside commitment. In plain terms: a sky-yes wants to persist. It is not her yes. Saturn stands on design Sun 21 — the control gate of Tension is occupied. That is pressure on the Cross, not a new channel. Natal 28–38 Struggle is still her only consistent definition. There is no split to weld.

Effects. Six temporary overlays beside one stubborn channel. Awareness wants to speak. Leadership wants a stance. A cycle wants an ending. Shock wants a first move. A feeling-story wants to run the day. A sky-yes wants to stay. None of that is invitation. A Projector still waits to be seen. The spleen still answers in this moment. Seven open centers will treat the overlays as identity. They are weather.

Expanded examples. A 1/3 will want to test all six doors in one afternoon. That is the bump, not the foundation. Morning: spleen. One quiet yes — rest, a page, a small finish — or none. Afternoon: one recognized conversation if it actually comes. She does not poke an empty room so Tension looks employed. Limited contact is study-and-wait. The investigator builds from what survives, not from what the sky offered.

Difficulties. Open Throat plus Brain Wave plus Alpha speaks and leads without invitation. Initiation goes first. Discovery signs a crossing the spleen did not make. Recognition treats the mood as authority. Maturation forces an ending. Open Sacral copies other people's urgency. The 1/3 calls the backlash a personal failure.

Resolution. The move is wait to be seen, then one spleen-yes, then stop. Awareness is not a speech. A sky-yes in 29 is not her yes. A feeling-story is not her authority. One cycle if it is actually done. Do not start a fight to prove Struggle is on. Keep the study door. One person after a real invitation is enough.

Bridging Effect. The move is wait, answer, stop. One circuit. Struggle stays hers. Six overlays ride beside it. Nothing to weld. Limited contact protects seven open centers. Leave the rest.

Friday, September 11, 2026

Transit Influences. Uranus 20.6 still holds 20–57. Jupiter 7.3 still holds 7–31. Mars 53.6 is the last day of 42–53 Maturation. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Mercury 46.4 still holds 29–46 Discovery. Saturn still occupies design Sun 21. In plain terms: same map. Tomorrow Mars leaves 53 and Maturation drops. The second-day grab is to finish Thursday's cycle and Thursday's sentence.

Effects. Familiar brightness. The leftover cycle wants a public ending. The leftover sky-yes wants a sequel. The spleen has not agreed. Recognition and invitation still rule. Struggle is still the only thing that was hers yesterday and is still hers today.

Expanded examples. Unfinished business is Friday's trick. Do not close a cycle because Mars is leaving. Do not send a stance because the Alpha has been on all week. One spleen-yes after a real invitation. If no one sees her, study is the correct place. Limited contact is not a missing audience.

Difficulties. Last-day Maturation forces an ending. Discovery treats persistence as proof. The Alpha uses the ending as a speech. Initiation goes first into the ending. Recognition writes it as fate. The 1/3 tries the ending, then calls the bump a failed experiment.

Resolution. The move is smaller than Thursday. Wait for recognition. One response the spleen actually makes. Let the cycle end if it is done. Do not stage the ending. Do not renew a sky-yes.

Bridging Effect. The move is same overlays, quieter act. Maturation ends tonight. Nothing to weld. Wait. Answer. Stop.

Saturday, September 12, 2026

Transit Influences. Uranus 20.6 still holds 20–57. Jupiter moves to 7.4 The Abdicator and still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Mercury 46.6 is the last day of 29–46 Discovery. Saturn still occupies design Sun 21. In plain terms: Maturation is off. Last day of the sky-yes. The Alpha can stand down. Awareness, initiation, and the feeling-story remain.

Effects. The map thinned by one cycle and is about to drop the extra yes. Last-day Discovery wants a vow before it leaves. Standing down can feel like losing the week. It is not. A Projector does not need a Saturday commitment to keep Tension honest. The spleen still answers only what is here.

Expanded examples. A 1/3 can treat the last day of 29–46 as a reason to lock a crossing. It is not. Morning: study, or one small finish the spleen already knows. Afternoon: let the sky-yes leave without a signature. If recognition comes, one clean answer. If it does not, the door stays closed.

Difficulties. Last-day Discovery signs what the body did not sound. The Abdicator gives the day away, then grabs it back. Initiation uses the drop as a first move. Recognition makes the vow feel fated. Open Ego fills when Saturn on 21 meets a quiet Saturday.

Resolution. The move is let the extra yes leave. Wait to be seen. One spleen-yes or none. Stand down if no one asked. Do not poke the room to keep Discovery employed.

Bridging Effect. The move is live the handoff. Discovery last day. Maturation already off. Brain Wave, Alpha, Initiation, Recognition remain. Nothing to weld. Wait. Answer. Stop.

Sunday, September 13, 2026

Transit Influences. Uranus 20.6 still holds 20–57. Jupiter 7.4 still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Venus has left 50 and stands at 28.1, lighting natal Channel 28–38 Struggle — a design of stubbornness — from her own defined gate. In plain terms: Discovery is off. Her only consistent channel is now sky-bright. Purpose is louder. That is not invitation. Saturn still occupies design Sun 21.

Effects. The drop is the extra yes leaving. The rise is Struggle turning up. Stubbornness feels like identity, because it is her identity. Lighting it does not make it a speech and does not make it a first move. Awareness and the Alpha will try to put Struggle on the microphone. Initiation will try to pick a shock. The feeling-story will try to plot it. The spleen still has to sound.

Expanded examples. Sunday can look like unfinished Saturday business. It is not. Morning: body of Struggle without a campaign — a walk, a boundary, no opponent. Afternoon: one recognized conversation if it comes. Do not restart a crossing to replace 29–46. Do not pick a fight so 28–38 looks employed. The investigator can study purpose without announcing it.

Difficulties. Lit Struggle picks an opponent so the quiet has work. Brain Wave and Alpha broadcast the fight. Initiation goes first. Recognition makes the fight feel like destiny. Open Sacral copies urgency. The 1/3 takes the bump and calls Tension a failure.

Resolution. The move is wait. Struggle can be on and still not run the day. One spleen-yes after recognition. Purpose is not a war. Do not hire a guest to replace yesterday's yes.

Bridging Effect. The move is live the simpler map with a louder home channel. Struggle lit. Four standing overlays remain. Discovery off. Nothing to weld. Wait. Answer. Stop.

Monday, September 14, 2026

Transit Influences. Moon 28.5 stands with Venus 28.1 on natal 28–38, so Struggle is doubled from the purpose side for this day. Uranus 20.6 still holds 20–57. Jupiter 7.4 still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Saturn still occupies design Sun 21. In plain terms: stubbornness is sharp today. Sharp is not a yes.

Effects. Two bodies on 28 make purpose feel personal. Awareness wants that purpose spoken now. The Alpha wants it led. Initiation wants it first. The feeling-story wants it fated. A Projector still waits. The spleen still answers in the moment. Doubled Struggle is weather on a channel she already knows how to live.

Expanded examples. Keep Monday small. Study. One boundary if the spleen says yes. No audience for purpose. If recognition comes, one clean answer, then the door. Tomorrow the Moon leaves 28. Venus stays. The sharpness eases; the lighting does not.

Difficulties. Doubled 28 picks a fight with the quiet. Open Throat announces it. Open emotions ride the borrowed story. Open Ego, pressed by Saturn on 21, tries to control the fight. The 1/3 experiments with all four and collects the bump.

Resolution. The move is wait for recognition before any stand. Let stubbornness stay in the body. Do not export it as a speech. One spleen-yes or none. Keep the study door.

Bridging Effect. The move is purpose without a court. Struggle doubled today. Four overlays still on. Nothing to weld. Wait. Answer. Stop.

Tuesday, September 15, 2026

Transit Influences. Venus 28.2 still lights natal 28–38. Uranus 20.6 still holds 20–57. Jupiter 7.4 still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Saturn still occupies design Sun 21. In plain terms: no new completion. Yesterday's extra Moon is gone. Struggle stays sky-bright at ordinary Venus volume.

Effects. The leftover habit is yesterday's sharpness. The spleen has not agreed to keep that pace. Awareness, leadership, shock, and the feeling-story are still on. Invitation is still the gate. Quiet is still correct.

Expanded examples. Tuesday does not owe Monday a sequel. Foundation first — the 1st line checks the pattern in private. One recognized conversation if it comes. Struggle can be on in the body without a project. Limited contact protects the seven open centers.

Difficulties. Yesterday's doubled purpose wants a second act. The Alpha wants to lead it. Initiation wants to start it. Recognition writes the sequel. Open Sacral says now.

Resolution. The move is back to ordinary pace. Wait. One spleen-yes after a real invitation. Do not pick up Monday's fight.

Bridging Effect. The move is the simple map. Struggle lit. Four overlays. Nothing to weld. Wait. Answer. Stop.

Wednesday, September 16, 2026

Transit Influences. Venus 28.2 still lights natal 28–38. Uranus 20.6 still holds 20–57. Jupiter 7.4 still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Saturn still occupies design Sun 21. In plain terms: same five. Third day of lit Struggle beside the standing four. Familiarity is the effect.

Effects. The sky is repeating itself. The 1/3 will want a new experiment so the week does not feel stalled. That grab is the only new weather. Recognition and invitation have not changed. The spleen still only knows this moment.

Expanded examples. No new crossing to prove Tension is working. Study. One small finish if the spleen says yes. One recognized conversation if it arrives. Stay out of empty rooms. The bump comes from poking, not from waiting.

Difficulties. Familiar overlays look like unfinished research. Brain Wave plus Alpha drafts a report no one asked for. Initiation starts a shock so the experiment has data. Recognition makes the data feel fated.

Resolution. The move is do not invent a test. Wait to be seen. One now-yes. Stop. Struggle does not need a demonstration.

Bridging Effect. The move is same five, no experiment. Nothing to weld. Wait. Answer. Stop.

Thursday, September 17, 2026

Transit Influences. Venus 28.3 still lights natal 28–38. Uranus 20.6 still holds 20–57. Jupiter moves to 7.5 The General and still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Saturn still occupies design Sun 21. In plain terms: the Alpha now wants to command. A General without recognition is just noise.

Effects. Leadership got louder. Struggle is still on. Awareness still wants the now-deed. Initiation still wants to go first. The feeling-story still wants a plot. Four weathers plus a louder Alpha can feel like a march. A Projector does not command a field that has not seen her.

Expanded examples. Keep Thursday small. The known page. The known bond, if it invites. No speech to satisfy 7.5. No fight to satisfy lit 28. The investigator stays in the cave. The martyr does not take a public bump on purpose.

Difficulties. The General plus Struggle declares a stand. Brain Wave announces it. Initiation goes first. Recognition supplies the flag. Open Ego, already pressed by Saturn on 21, tries to control the field.

Resolution. The move is wait for recognition anyway. The General waits. One spleen-yes after an invitation. No column. No new fight.

Bridging Effect. The move is command nothing. Struggle lit. Alpha louder. Three other overlays remain. Nothing to weld. Wait. Answer. Stop.

Friday, September 18, 2026

Transit Influences. Venus 28.4 still lights natal 28–38. Uranus 20.6 still holds 20–57. Jupiter 7.5 still holds 7–31. Neptune 25.6 still holds 25–51. North Node 30.6 with Pluto 41.2 still holds 30–41. Saturn still occupies design Sun 21. In plain terms: end of the window. Same five. No new completion. The grab is to close the week with a stand or a speech.

Effects. Five overlays want a finale — a spoken awareness, a commanded direction, a first move, a finished feeling-story, a public purpose. None of that is required. The spleen closes the week. Then one answer if recognition actually came. Struggle stays hers after Venus leaves. The overlays were never the Cross.

Expanded examples. Close the window from the study. Morning: spleen, one small thing or none. Afternoon: one recognized conversation if it comes — not a review of nine days. A 1/3 does not need a public result to keep the foundation. What survived is the experiment. What did not can go.

Difficulties. The General wants an ending speech. Initiation picks a shock as the ending. Brain Wave talks. Recognition writes the week as fate. Lit Struggle picks a last opponent. Quiet looks like Tension unfinished.

Resolution. The move is wait, then one response, then stop. Do not stage Friday. Keep the study door. Struggle is enough.

Bridging Effect. The move is end the window without a court. Struggle still lit. Brain Wave, Alpha, Initiation, Recognition still on. Nothing to weld. Wait. Answer. Stop.

These nine days touch Leah here: hanging 57 completed as 20–57 the Brain Wave the whole window; hanging 31 completed as 7–31 the Alpha the whole window; hanging 51 completed as 25–51 Initiation the whole window; hanging 30 completed as 30–41 Recognition of Feelings the whole window; hanging 42 completed as 42–53 Maturation September 10 through 11 only; hanging 29 completed as 29–46 Discovery September 10 through 12 only; natal 28–38 Struggle lit from Venus in 28 September 13 through 18, with the Moon also in 28 on the 14th; Saturn occupying design Sun 21 the whole window as Cross pressure, not as a completed channel. Natal Struggle is not rewritten. There is no electromagnetic channel to feed. There is no split to weld. The sky does not grant a new Cross. The move every day is wait for recognition or invitation, one spleen-yes, then stop. Limited contact is how Tension stays honest.
