Transit Influences. Venus 50.5 Consistency against Personality Sun 27 holds Channel 27–50 Preservation — a design of custodianship. In plain terms: care of her own form can reach instinct. Jupiter 7.3 The Anarchist against Design Earth 31 holds Channel 7–31 the Alpha — a design of leadership. In plain terms: direction wants a sentence. Mars 53.5 against hanging 42 holds Channel 42–53 Maturation — a design of starting and finishing. In plain terms: a cycle wants to close. North Node 30.6 with Pluto 41.2 against Design Sun 41 holds Channel 30–41 Recognition of Feelings. In plain terms: a borrowed feeling-story lands on the Unexpected. That story is not Splenic authority. There is no split to weld.

Effects. Four temporary channels on a circuit that only consistently holds 26–44 the Transmitter. Care wants a meal, rest, or a boundary. The Alpha wants a stance. Maturation wants something finished. Recognition wants the mood followed. A Projector still waits to be seen. The spleen still answers in the moment. Quiet is not the Unexpected failing.

Expanded examples. Four doors want the same hour. Pick none until recognition arrives. Morning: one quiet spleen-yes — care of the body, or nothing. Afternoon: one recognized conversation if it actually comes. The opportunist works bonds that are already alive. The role model stays on the roof. She does not assemble an audience so four overlays look employed.

Difficulties. The Alpha speaks before recognition. Preservation becomes duty. Maturation refuses to stop, or stops to escape the feeling-story. Recognition pretends she has become emotional authority. Open Sacral fills with other people's urgency.

Resolution. The move is wait to be seen, then one spleen-yes, then stop. Care for her own form. Leadership does not overthrow an empty room. One cycle, then done. The mood is weather. It is not a yes.

Bridging Effect. The move is wait, answer, stop. One circuit. Nothing to weld. Limited contact is Projector pacing. The Transmitter stays hers. Leave the rest.

Transit Influences. Venus 50.5 still holds 27–50 Preservation. Jupiter 7.3 still holds 7–31 the Alpha. Mars 53.6 is the last day of 42–53 Maturation. North Node 30.6 with Pluto 41.2 still holds 30–41. In plain terms: same four. Tomorrow Mars leaves 53 and Maturation drops. The second-day grab is to finish Thursday's cycle and Thursday's sentence.

Effects. Familiar brightness. Care still wants consistency. Leadership still wants a stance. The cycle still wants an ending. The feeling-story still wants to run the day. The spleen has not agreed to a sequel. Recognition and invitation still rule.

Expanded examples. Unfinished business is Friday's trick. Do not close a cycle because Mars is about to leave. Do not send a stance because the Alpha has been on all week. One spleen-yes after a real invitation. If no one sees her, the roof is the correct place. Limited contact is compatible with this pacing.

Difficulties. Last-day Maturation forces an ending. The Alpha uses the ending as a speech. Preservation locks care into duty. Recognition writes the ending as fate. The 4th line leaves the roof to collect a network that was not invited.

Resolution. The move is smaller than Thursday. Wait for recognition. One response the spleen actually makes. Let the cycle end if it is done. Do not stage the ending. Care stays care.

Bridging Effect. The move is same four, quieter act. Maturation ends tonight. Nothing to weld. Wait. Answer. Stop.

Saturday, September 12, 2026

Transit Influences. Venus 50.6 is the last day of 27–50 Preservation. Jupiter moves to 7.4 The Abdicator and still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars has left 53 and stands at 62.1 against hanging 17, completing Channel 17–62 Acceptance — a design of an organizational being — for the rest of this window. In plain terms: Maturation is off. A borrowed opinions-to-detail channel is on. Preservation ends tonight. The Alpha can stand down.

Effects. The map changed. Care-hallway is in its last hours. A new mental-detail overlay wants to organize the day. The Alpha can yield. The feeling-story is still on. Organizing is not recognition. An opinion is not a spleen-yes. Saturday does not need a committee.

Expanded examples. A 4/6 can treat last-day care plus a new organizing channel as a reason to run the house. It is not. Morning: body, if the spleen says yes. Afternoon: let Preservation leave without a ceremony. Do not start a new system because 17–62 arrived. Stay on the roof until someone actually asks.

Difficulties. Last-day Preservation hosts a household that did not ask. Acceptance drafts a plan no one invited. The Abdicator gives the day away, then grabs it back. Recognition makes the new overlay feel fated.

Resolution. The move is let care end. Do not replace it with a system. Wait for recognition. One spleen-yes, or none. Stand down if no one asked.

Bridging Effect. The move is live the handoff without a meeting. Preservation last day. Acceptance begins. Alpha and Recognition remain. Nothing to weld. Wait. Answer. Stop.

Sunday, September 13, 2026

Transit Influences. Jupiter 7.4 still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.1 still holds 17–62 Acceptance. Mercury 18.2 against hanging 58 completes Channel 18–58 Judgment — a design of vitality — for a few days. In plain terms: Preservation is off. Two correction-and-detail overlays are on. Judgment wants to fix. Acceptance wants to organize. Neither is an invitation.

Effects. The drop from care can feel like a hole. The mind will try to fill it with a standard and a list. That is the effect. The Alpha still wants a sentence. Recognition still supplies a story. A Projector does not become a critic because 18–58 arrived. The spleen still has to sound in the moment.

Expanded examples. Sunday can look like unfinished Saturday care. It is not. Do not start a repair job to replace 27–50. If recognition comes, one clean answer. If it does not, the roof. Judgment can notice what is off and leave it noticed. It does not have to be fixed today.

Difficulties. Judgment criticizes an empty room. Acceptance organizes the criticism. The Alpha announces the fix. Recognition makes the fix feel necessary. Open Sacral copies someone else's urgency.

Resolution. The move is notice, do not campaign. Wait to be seen. One spleen-yes if a real invitation names a real task. Do not hire a guest to replace yesterday's care.

Bridging Effect. The move is simpler house, busier mind. Care-hallway gone. Alpha, Recognition, Acceptance, Judgment. Nothing to weld. Wait. Answer. Stop.

Monday, September 14, 2026

Transit Influences. Jupiter 7.4 still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.2 still holds 17–62. Mercury 18.4 still holds 18–58 Judgment. In plain terms: same four. Second day without Preservation. The grab is to keep fixing so the hole feels filled.

Effects. Familiar mental weather. Leadership, feeling-story, organizing, correction. None of that is her Transmitter, and none of it is invitation. The spleen is still the only clock. Quiet is still correct.

Expanded examples. Monday does not owe Sunday a repair. Body if the spleen says yes. One recognized conversation if it comes. Leave the standard on the page. The opportunist does not add a new friend to employ Judgment.

Difficulties. Two days of 18–58 make the critic feel like identity. Acceptance builds the critique into a program. The Alpha wants it spoken. Recognition writes it as the Unexpected arriving.

Resolution. The move is wait. One response after recognition. Do not let Judgment become the week's job. Care of form is still available without 27–50 — food, rest, the door — if the spleen says yes.

Bridging Effect. The move is same four, no campaign. Nothing to weld. Wait. Answer. Stop.

Tuesday, September 15, 2026

Transit Influences. Earth 36.1 against hanging 35 completes Channel 35–36 Transitoriness — a design of a Jack of all Trades — and holds it through the end of this window. Mercury 18.5 is the last day of 18–58 Judgment. Jupiter 7.4 still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.2 still holds 17–62. In plain terms: a hunger for change arrives. Correction is in its last hours. Change is not invitation.

Effects. Transitoriness wants a new experience so the feeling will move. That is borrowed crisis-weather on an open Solar Plexus. It is not Splenic authority. Judgment will try to correct the new hunger before it has been lived. The Alpha will try to lead it. A Projector does not start a new life on a Tuesday because Earth entered 36.

Expanded examples. Name the restlessness. Do not act it. If recognition comes for a small, already-alive task, the spleen can say yes. Do not collect a new experience to make the Unexpected look busy. Tomorrow Judgment drops. Transitoriness stays.

Difficulties. 35–36 starts a story to make the feeling move. Last-day Judgment criticizes the story. The Alpha leads the change. Recognition makes the change feel fated. Open Sacral wants the experience now.

Resolution. The move is wait. Experience is not permission. Let Judgment leave tonight without a final verdict. One spleen-yes after a real invitation. No new crossing.

Bridging Effect. The move is feel the hunger and do not appoint it a leader. Transitoriness begins. Judgment last day. Alpha, Recognition, Acceptance remain. Nothing to weld. Wait. Answer. Stop.

Wednesday, September 16, 2026

Transit Influences. Earth 36.2 still holds 35–36 Transitoriness. Jupiter 7.4 still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.3 still holds 17–62. In plain terms: Judgment is off. The map is change, direction, feeling-story, and organizing. Still no invitation in the sky.

Effects. The critic left. The hunger did not. The leftover habit is to manage the change with a list. Acceptance will offer that list. The Alpha will offer a stance. Recognition will offer a plot. The spleen still answers only what is here, now.

Expanded examples. Wednesday's trick is a plan for a change that has not been invited. Stay on the roof. One recognized conversation if it comes. One small care of the body if the spleen says yes. Do not start a new trade because 35–36 is on.

Difficulties. Transitoriness plus the Alpha becomes a campaign. Acceptance organizes the campaign. Recognition makes it feel like destiny. Quiet looks like missing the Unexpected.

Resolution. The move is no campaign. Wait to be seen. One now-yes. Stop. Let the change be weather.

Bridging Effect. The move is hunger without a project. Transitoriness, Alpha, Recognition, Acceptance. Nothing to weld. Wait. Answer. Stop.

Thursday, September 17, 2026

Transit Influences. Earth 36.3 still holds 35–36. Jupiter moves to 7.5 The General and still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.4 still holds 17–62. In plain terms: same four. The Alpha now wants to command. A General without recognition is just noise.

Effects. Leadership got louder. Change is still on. The feeling-story is still on. Organizing is still on. Four weathers can feel like a march. A Projector does not command a field that has not seen her. The spleen is still the only yes.

Expanded examples. Keep Thursday small. The known bond, if it invites. The known body-yes, if it sounds. No new experience to satisfy 35–36. No speech to satisfy 7.5. The role model watches from the roof.

Difficulties. The General plus Transitoriness declares a move. Acceptance writes the orders. Recognition supplies the flag. Open Sacral salutes.

Resolution. The move is wait for recognition anyway. The General waits. One spleen-yes after an invitation. No column. No new trade.

Bridging Effect. The move is command nothing. Same four. Nothing to weld. Wait. Answer. Stop.

Friday, September 18, 2026

Transit Influences. Moon 11.3 against hanging 11 completes Channel 11–56 Curiosity — a design of a searcher — for this day only. Earth 36.4 still holds 35–36. Jupiter 7.5 still holds 7–31. North Node 30.6 with Pluto 41.2 still holds 30–41. Mars 62.4 still holds 17–62. In plain terms: a borrowed search wants to tell. It does not replace invitation. The week does not close by becoming a story.

Effects. Curiosity wants to look and speak. Transitoriness wants a change to report. The General wants to lead the report. Recognition wants the week to mean something. Acceptance wants the notes filed. Five overlays on a Single circuit that still only owns 26–44. A search is not a yes. A finale is not recognition.

Expanded examples. Close the window from the roof. Morning: spleen, one small care or none. Afternoon: one recognized conversation if it actually comes — not a review committee. Keep the finding on the page. The opportunist does not add a stranger so Curiosity has an audience. Tomorrow the Moon leaves 11.

Difficulties. Lit Curiosity broadcasts. The General commands the broadcast. Transitoriness turns it into a new life. Recognition writes the ending. Acceptance files it as policy. Quiet looks like a failed week.

Resolution. The move is wait to be seen, then one response, then stop. Search in private. Do not stage Friday. The Transmitter is still enough.

Bridging Effect. The move is end the window without a court. Curiosity one day. Transitoriness, Alpha, Recognition, Acceptance still on. Nothing to weld. Wait. Answer. Stop.

These nine days touch Milena here: hanging 31 completed as 7–31 the Alpha the whole window (Jupiter 7.3, then 7.4, then 7.5); hanging 41 completed as 30–41 Recognition of Feelings the whole window; hanging 27 completed as 27–50 Preservation September 10 through 12 only; hanging 42 completed as 42–53 Maturation September 10 through 11 only; hanging 17 completed as 17–62 Acceptance from September 12 through 18;

hanging 58 completed as 18–58 Judgment September 13 through 15 only; hanging 35 completed as 35–36 Transitoriness from September 15 through 18; hanging 11 completed as 11–56 Curiosity on September 18 only. Natal 26–44 the Transmitter is not rewritten. Hanging 28 stays uncompleted. There is no electromagnetic channel to feed. There is no split to weld. The sky does not grant a new Cross. The move every day is wait for recognition or invitation, one spleen-yes, then stop. Limited contact is how the Unexpected stays honest.
