

Leah

Transit Report • September 3 – September 11, 2026

Projector • Profile 1/3 • Splenic • Single Definition

Right Angle Cross of Tension (39/38 | 21/48)

How This Window Meets Her Design

Leah is a Single Definition Splenic Projector, 1/3, on the Right Angle Cross of Tension. One channel is defined: 28–38 Struggle, Spleen to Root, a design of stubbornness. That is her consistency — the fight to know life is of value. Everything else is open: Head, Ajna, Throat, G, Heart, Sacral, Solar Plexus. There is no split to bridge and no natal electromagnetic channel.

The Cross is Tension — provocation and stubbornness, control and depth. This window occupies design Sun 21 with Saturn the whole time, keeps 38 defined through Struggle, and does not complete 39–55 or 16–48. What the sky can do is add temporary channels beside Struggle. Strategy does not change: wait for recognition and invitation. Authority is the spleen in the now, not the borrowed wave. Profile 1/3 investigates, bumps, and builds a foundation from what survives. Limited contact protects seven open centers and reduces false invitations.

Standing Sky — the Whole Window

Uranus holds 20 and keeps hanging 57 complete as 20–57 the Brain Wave all nine days. Jupiter holds 7 and keeps hanging 31 complete as 7–31 the Alpha all nine days. Mars holds 53 and keeps hanging 42 complete as 42–53 Maturation all nine days. Neptune holds 25 and keeps hanging 51 complete as 25–51 Initiation all nine days. North node exact her design node keeps hanging 30 complete as 30–41 Recognition all nine days. Saturn sits on design Sun 21 without 45, except for a lunar 21–45 on Friday. South node exact her design node occupies hanging 29, and completes 29–46 when Mercury reaches 46 on Wednesday.

Earth on 63 from Friday through Tuesday completes hanging 4 as 4–63. Earth occupies hanging 22 from Wednesday without 12. Venus occupies 50 from Saturday without 27. What this window does not do: it does not complete 39–55, 16–48, 12–22, 27–50, 59–6, 5–15, or 11–56. It does not turn seven open centers into a second definition.

Thursday, September 3, 2026

- **Key Transit Activation:** Uranus keeps hanging 57 complete as 20–57 the Brain Wave — penetrating awareness through an open Throat. Jupiter keeps hanging 31 complete as 7–31 the Alpha. Mars keeps hanging 42 complete as 42–53 Maturation. Neptune keeps hanging 51 complete as 25–51 Initiation. North node exact her design node keeps hanging 30 complete as 30–41 Recognition. Saturn sits on design Sun 21 without 45. South node exact her design node occupies hanging 29 without 46. The Moon occupies 20 with Uranus, so the Brain Wave is lit from both ends. Venus occupies hanging 32 without 54. The sky's 37–40 briefly defines open Ego and open Solar Plexus; that pairing is not hers.
- **Effect:** Struggle remains her consistency. Beside it: intuition in the now, a leadership voice, a cycle that can finish, a shock-gate on open G and open Ego, and a fated feeling on open Root. Tension's design sun (21) is occupied by Saturn — the hunter without the gatherer.

- **Difficulty:** Seven open centers will treat borrowed motors as identity. Recognition plus sky 37–40 is a wave a Splenic Projector does not own. Open Throat plus Brain Wave plus Alpha wants to speak and lead without invitation. Initiation wants to go first. The 1/3 will try the fight, the feeling, and the shock in one afternoon and call the backlash a personal failure.
- **Resolution:** Spleen first — the quiet yes in this moment. 39 already knows when not to fight; that is her Personality Sun, even with 39–55 off. Awareness is not a speech. Wait to be recognized. Do not say yes from occupied 29. Rest is correct Projector strategy.
- **Bridging Effect:** She is single definition. Nothing needs welding. 20–57, 7–31, 42–53, 25–51, and 30–41 are temporary overlays beside 28–38. Sky 37–40 is a one-day island on two open centers. Limited contact protects seven open centers and reduces false invitations. She does not poke an empty room to prove Tension is working.

Friday, September 4, 2026

- **Key Transit Activation:** The Moon occupies 45 with Saturn on design Sun 21, so 21–45 Money is briefly lunar — the other pole of her Cross gets a gatherer for hours. Earth enters 63 and completes hanging 4 as 4–63 Logic, Head to Ajna, both open. The Sun enters 64 on open Head. Mercury occupies 47 on open Ajna. 20–57, 7–31, 42–53, 25–51, and 30–41 remain.
- **Effect:** For a few hours the hunter of the Cross has a gatherer. Open Head and Ajna get a logic channel they do not define. Brain Wave, Alpha, Maturation, Initiation, and Recognition continue as overlays. Struggle is still the only consistent fight.
- **Difficulty:** Lunar 21–45 can look like a mandate to manage resources for people who are not there. Open Head plus 4–63 fills with doubt and formulas. A 1/3 will test the formula, meet resistance, and call it failure. Open Throat will want to announce the finding without invitation.
- **Resolution:** Let 21–45 pass without founding a treasury. 4–63 is research for the 1st line, not a verdict. Spleen in the now decides whether any coordination is actually hers. Wait to be asked before the Alpha or the Brain Wave speaks.
- **Bridging Effect:** 21–45 is hours, not the week — Cross design sun briefly completed. 4–63 is a mental island on two open centers. Overlays otherwise unchanged. Few people keep open Ego from rehearsing rulership and keep the 1/3 from running an experiment on an empty house.

Saturday, September 5, 2026

- **Key Transit Activation:** Venus enters 50 on defined Spleen without her 27, so 27–50 does not complete. The Moon occupies design Moon 15 without her 5, so Rhythm does not form. 4–63 holds. 20–57, 7–31, 42–53, 25–51, and 30–41 remain.
- **Effect:** Values frequency arrives in Struggle's Spleen: a sense of law without the nourishment that would make it custodianship. Open G has tempo weather. The Cross still has 21 occupied and 38 defined; 39 and 48 are not completed today.
- **Difficulty:** 50 without 27 judges a tribe she is not feeding. Open Sacral cannot generate the care 50 implies. Recognition will sentimentalize the duty. The 1/3 can take the job, bump, and decide values themselves are the problem.

- **Resolution:** Hold values from humility. Custodianship of her own form first. The spleen in the now knows whether a request is recognition or a job. One recognized exchange is enough field for 50.
- **Bridging Effect:** 50 occupies defined Spleen; 27–50 does not form. 15 occupies open G; 5–15 does not form. Overlays stand. Limited contact is correct — Struggle does not require a ward. It requires a recognized yes.

Sunday, September 6, 2026

- **Key Transit Activation:** Mercury leaves 47 and occupies 6 on open Solar Plexus — friction without 59, so Mating does not complete. The Moon joins Mars on 53, so 42–53 is occupied from both ends against natal 42. Venus holds 50. 4–63 holds. 20–57, 7–31, 25–51, and 30–41 remain.
- **Effect:** Maturation is fully lit: the start-gate in the sky meets her hanging finish-gate. Open Solar Plexus has friction on top of the week-long Recognition wave. Brain Wave and Alpha still want a voice.
- **Difficulty:** A Splenic Projector can mistake friction-plus-wave for the spleen's click. 42–53 will try to finish a cycle that was never hers. Open Throat plus Alpha will announce the finish. The 1/3 will start, bump, and call Tension a curse.
- **Resolution:** Name the wave as borrowed. Spleen in the now — not the mood, not the finish-line. Do not close what she did not start. Awareness is not a speech. Wait for invitation.
- **Bridging Effect:** 42–53 is brighter, still an overlay. 6 occupies open Solar Plexus; 59–6 does not form. No new weld. Fewer auras keep Root, Sacral, and Solar Plexus from running someone else's cycle.

Monday, September 7, 2026

- **Key Transit Activation:** The Moon occupies 56 on open Head and open Throat without her 11, so 11–56 does not complete. The Sun remains on 64. Mercury remains on 6. Venus holds 50. 4–63, 20–57, 7–31, 42–53, 25–51, and 30–41 remain.
- **Effect:** Stimulation walks two open centers past a Brain Wave and an Alpha that already want to speak. A 1/3 investigator can feel a story arriving with no idea-gate to hold it.
- **Difficulty:** Open Head plus 56 plus open Throat plus 20–57 is an urge to tell. Without invitation the telling is noise in her own open centers. Recognition will color the story. The martyr line will test the telling on whoever is nearest — or on the empty room.
- **Resolution:** No 11–56 means no story channel. If something is recognized, one sentence to one known person. When the Moon leaves, Head and Throat go quiet again. That is correct. Do not build a teaching around a lunar pass.
- **Bridging Effect:** 56 occupies; 11–56 does not form. Overlays unchanged. The 1st line can take notes. The 3rd line does not need to bump the furniture to learn that the door was lunar.

Tuesday, September 8, 2026

- **Key Transit Activation:** The Moon occupies 7 with Jupiter also on 7 — the Alpha is occupied from the sky at both ends against natal 31. Saturn is still on design Sun 21. The Sun finishes 64. Earth finishes 63, so 4–63 is in its last hours. Mercury is still on 6. 20–57, 42–53, 25–51, and 30–41 remain.
- **Effect:** Leadership frequency is as high as this window gets. Tension's design sun (21) is still Saturn-lit. Initiation still sits on open G. Brain Wave still sits on open Throat.

- **Difficulty:** Alpha plus Initiation plus four-plus open motors looks like a mandate to run the fight for everyone. A Projector who leads without invitation meets resistance; the 3rd line then files it as “I am the problem.” Friction and Recognition will dress the mandate as feeling or fate.
- **Resolution:** The Alpha is a frequency, not a job. Speak if recognized. Coordinate only what the spleen already said yes to. 21 without a lasting 45 cannot fund a campaign. Rest is not absence.
- **Bridging Effect:** 7–31 is peak overlay, still temporary. 4–63 fades. Single definition is still one channel: Struggle. Limited contact keeps the Alpha from recruiting a court the Cross of Tension does not need.

Wednesday, September 9, 2026

- **Key Transit Activation:** The Sun enters 47 on open Ajna. Earth enters 22 and occupies hanging design 22 — mood and grace on open Solar Plexus, without 12, so Openness does not complete. Mercury enters 46 and, with the south node exact her design south node 29, completes hanging 29 as 29–46 Discovery — Sacral to G, both open. The Moon occupies 29 with the south node. Venus holds 50. 20–57, 7–31, 42–53, 25–51, and 30–41 remain.
- **Effect:** Perseverance finally has a discovery channel: hanging 29 meets transit 46. Open Sacral and open G are borrowed together. Hanging 22 is occupied. Realization pressure sits on open Ajna. Struggle still holds the only consistent fight.
- **Difficulty:** 29–46 will say yes because place and momentum outran the spleen. 22 without 12 performs mood for an empty room. Open Ajna will publish a realization and wait to be invited after the fact. The 1/3 can commit, bump, and decide discovery itself failed.
- **Resolution:** Spleen in the now. Discovery is being in the right place after recognition, not a recruitment drive. 22 is weather, not a social channel. Do not let a sacral-looking yes outrun invitation.
- **Bridging Effect:** 29–46 is a new overlay on two open centers. 12–22 does not form. Inner instrument is as full as this window gets. Guests are not required to turn those overlays on. Invitation still releases the Throat.

Thursday, September 10, 2026

- **Key Transit Activation:** The Sun remains on 47. Earth remains on 22. The Moon occupies 64 — abstract pressure on open Head, pairing in the sky with the Sun on 47, not in her design. Mercury keeps 29–46. Venus holds 50. 20–57, 7–31, 42–53, 25–51, and 30–41 remain.
- **Effect:** The instrument is full: Struggle plus Brain Wave, Alpha, Maturation, Initiation, Recognition, Discovery, occupied 22, occupied 21, occupied 50. Open Head is loud.
- **Difficulty:** A full instrument plus few people can invent work so seven open centers will not notice they are open. Abstraction will dump every frame into an uninvited Throat. The 1/3 can decide the experiment failed because no one was watching.
- **Resolution:** The mental flood is weather. Struggle does not need an audience every hour. One recognized exchange is enough. Spleen decides. Invitation releases the Throat.
- **Bridging Effect:** No new natal channel. Sky 64–47 does not attach. Overlays stand. Limited contact is protection, not a deficit. A Projector was not built to hold court every day.

Friday, September 11, 2026

- **Key Transit Activation:** The Sun remains on 47. Earth remains on 22. The Moon occupies 6 on open Solar Plexus. Mercury keeps 29–46. Venus keeps 50. Mars finishes 53, so 42–53 holds through the close. 20–57, 7–31, 25–51, and 30–41 remain. Saturn remains on design Sun 21.
- **Effect:** The week closes with Tension’s design sun still occupied, Struggle still defined, and the same overlay stack still on — Discovery now included, Mating still not complete.
- **Difficulty:** Friction at the end of nine days can pick a fight with the spleen, or close a discovery-yes that the spleen never gave. 42–53 wants the week to have finished something. Open Root and open Sacral will volunteer. The 3rd line can file quiet as a failed experiment.
- **Resolution:** Do not finish the window with a ruling. Spleen in the now. Let Struggle stay purposeful. Let the Alpha stop leading a room that was never called. 48 and 39 can stay incomplete as channels. That is not a defect in the Cross.
- **Bridging Effect:** The week ends as it ran: single definition, five-to-six reliable overlays (20–57, 7–31, 42–53, 25–51, 30–41, and 29–46 from Wednesday), one lunar 21–45 that already closed, one mental 4–63 that already closed, and 39–55 off since Mars left 39. She did not need people to weld a split she does not have. Wait for recognition. Trust the spleen. Trust Struggle to know which fight is worth it.

Closing Orientation

The spine of these nine days is Struggle plus a stack of overlays: Brain Wave, Alpha, Maturation, Initiation, and Recognition the whole window; a lunar gatherer for the Cross’s 21 on Friday; Logic in the open mind Friday through Tuesday; Discovery from Wednesday when hanging 29 finally meets 46. 39–55 is off. 48 stays hanging. With few people she navigates as a Projector. Wait for recognition. Trust the spleen in the now. Do not test Tension on an empty room. Let the 1st line take notes and the 3rd line survive what it bumps. Invitation releases the Throat. Notice when overlays come and go, and when Struggle is still the only thing that is always on.

Love Yourself,

— The Human Design Experiment

Applied only where the current sky completes or occupies Leah’s defined and hanging channels. Line-level transit listings and line commentary are omitted by design.
