

## Dennis Transit Report: August 20–28, 2026

Dennis is a Manifesting Generator, Profile 6/2, Single Definition, Left Angle Cross of Migration (37/40 | 5/35), with defined channels of Transitoriness (35-36), Openness (12-22), The Prodigal (33-13), Community (40-37), and Rhythm (5-15). Electromagnetic channels remain 0. Focus is on transit activations that complete hanging gates into temporary channels (especially those linked to his open Root, Spleen, Ajna or enhancing defined Throat/G/Sacral/Solar Plexus), line-specific themes from his chart, and how these interact with his 6/2 Role Model/Hermit nature and sacral response authority. As a 6/2, selective and limited exposure is natural; navigate by waiting for clear sacral response before any engagement, protecting hermit time for reflection (especially via his defined 33-13).

### Thursday, August 20, 2026

- **Key Transit Activation:** Sun 29.4 (The Abysmal – Directness) + Moon 34.6 (The Power of the Great – Common Sense), completing temporary Channel of Exploration (10-34) with Dennis’s Design hanging Gate 10.2.
- **Effect:** Sun 29.4 brings fixed, disciplined commitment energy into the open sacral gate, emphasizing the shortest, most direct path through experience. Moon 34.6 activates pure individual survival power and the recognition of when enough is enough. Together they form the 10-34 channel, flooding his already-defined G and Sacral with exploratory power that wants to move according to his own rhythm (reinforced by defined 5-15).
- **Difficulty:** The directness of 29.4 can feel crude or offensive to others; the 34.6 power may over-extend into unnecessary displays or take on more than can be sustained, especially if the hermit (line 2) aspect is pulled into external demands. Sacral response may be clouded by the pressure to “just say yes” and push through.
- **Resolution:** Honor the 6/2 hermit need for private processing. Wait for a clear sacral “yes” before committing energy. Use the defined 33-13 Prodigal channel to retreat and reflect at the end of any activity so the power is not wasted. Spit out what is too much (34.6 Earth exaltation theme) rather than force persistence.
- **Bridging Effect:** Temporary 10-34 completes the hanging Design 10 into the defined Sacral-G structure, integrating individual power and exploration into the Single Definition without creating a split. It strengthens the Migration Cross theme of moving through life on one’s own terms while the Community channel (40-37) remains available for selective support only when response is clean.

### Friday, August 21, 2026

- **Key Transit Activation:** Sun 29.5 (Overreach) + Moon 26.1 (The Taming Power of the Great), conjunct Dennis’s Design Mercury 26.1 and Moon 26.2.
- **Effect:** Sun 29.5 brings the sacral pressure to over-commit and universalize experience, often leading to being burdened by others’ projections. Moon on 26 activates the ego/heart gate of the Channel of Surrender (26-44 potential), emphasizing accumulation and the will to correct or improve through experience. The conjunction to his own 26 deepens the theme of using willpower and memory of past patterns.
- **Difficulty:** Overreach can leave the Manifesting Generator depleted, especially when the 6/2 Role Model feels responsible for fixing or carrying others. The 26 energy may push ego-driven correction that bypasses true sacral response.
- **Resolution:** Apply the core 29 advice: do not say yes immediately—make them wait. Use the defined 40-37 Community channel only for mutually supportive exchanges that the sacral actually responds to. Retreat via 33-13 to review what is truly worth the willpower investment.

## Dennis Transit Report: August 20–28, 2026

- **Bridging Effect:** The 26 activation temporarily strengthens the Heart center's connection into the Single Definition, allowing cleaner use of will without opening a new split. It supports the Migration Cross by refining what is worth carrying forward on the journey.

### Saturday, August 22, 2026

- **Key Transit Activation:** Sun 29.6 (Confusion) + Moon 10.1 (Behavior of the Self – Modesty), conjunct Dennis's Design South Node 10.2.
- **Effect:** Sun 29.6 marks the transitional end of the commitment cycle, bringing confusion about whether to continue saying yes. Moon on 10.1 activates the G-center role of behavior and modesty, reinforcing his hanging 10 and the potential for perfected or exploratory expression of self.
- **Difficulty:** Confusion at the end of the 29 process can lead to either clinging to outdated commitments or abrupt withdrawal. The 10.1 modesty may make the 6/2 hermit overly self-effacing, delaying the Role Model expression.
- **Resolution:** Allow the confusion as a natural signal to stop and reflect rather than force clarity. Use defined Rhythm (5-15) to return to consistent personal patterns. The sacral will clarify once the pressure of "should" is released.
- **Bridging Effect:** Moon conjunct the hanging 10 temporarily bridges G-center behavior into the defined structure, supporting the Single Definition's coherence and the Cross of Migration's need for authentic self-direction in movement.

### Sunday, August 23, 2026

- **Key Transit Activation:** Sun 59.1 (Dispersion – The Preemptive Strike) + Moon 38.2 (Opposition).
- **Effect:** Sun enters Gate 59 (Intimacy/Dispersion), the sacral role gate of breaking down barriers for union. Line 1 is the foundational preemptive, direct strategy for connection. Moon in 38 activates the Root gate of opposition and the fighter spirit (potential 28-38 Struggle channel).
- **Difficulty:** The genetic drive of 59.1 can push for intimacy or connection that the 6/2 hermit does not actually want. Root pressure from 38 may create unnecessary resistance or the feeling of having to fight for space.
- **Resolution:** Treat the 59 energy as pure genetic role, not personal identity. Only respond when the sacral lights up for actual connection; otherwise protect hermit time. Use defined Community (40-37) for any necessary bonds that feel mutual rather than driven.
- **Bridging Effect:** Temporary activation of the open sacral 59 gate feeds clean energy into the defined Sacral, keeping the Single Definition intact while offering selective intimacy only when correct. Supports Migration by clarifying who belongs on the journey.

### Monday, August 24, 2026

- **Key Transit Activation:** Sun 59.2 (Shyness/Boldness) + Moon 61.3 (Inner Truth).
- **Effect:** Sun 59.2 projects the role of shyness that magnetically draws boldness, or vice versa, in the intimacy process. Moon in 61 (Head center) brings pressure for inner truth and the mystery of knowing.
- **Difficulty:** The projected shyness/boldness can create mixed signals that pull the hermit into unwanted social dynamics. Head pressure may generate mental noise about "what is true" regarding relationships or direction.

## Dennis Transit Report: August 20–28, 2026

- **Resolution:** Stay in the 2nd-line hermit projection without forcing engagement. Let the sacral decide any boldness. Use the defined Prodigal channel (33-13) to privately process the inner-truth pressure rather than externalize it.
- **Bridging Effect:** The 59.2 role energy temporarily conditions the Sacral in a way that remains contained within the Single Definition, allowing the 6/2 to model selective availability without fragmentation.

### Tuesday, August 25, 2026

- **Key Transit Activation:** Sun 59.3 (Openness) + Mercury 59.1 + Moon 41.4 (Decrease).
- **Effect:** Sun 59.3 brings the experiential bonds-made-and-broken theme into intimacy roles. Mercury on 59.1 reinforces the preemptive strategy. Moon in 41 (Root) activates the pressure of desire and the start of new experiential cycles.
- **Difficulty:** Bonds made and broken can feel destabilizing for the 6/2 who prefers stable hermit patterns. Root desire pressure may urge premature yeses to new experiences.
- **Resolution:** Recognize 59.3 as genetic strategy only. Wait for sacral response before any new bond or desire is acted upon. Rely on defined Rhythm (5-15) to maintain personal pacing amid the pressure.
- **Bridging Effect:** Multiple activations of 59 feed the open sacral gate into the defined Sacral center, temporarily enriching the Single Definition's capacity for correct intimacy without creating new splits or open-center conditioning that overrides response.

### Wednesday, August 26, 2026

- **Key Transit Activation:** Sun 59.4 (Brotherhood/Sisterhood) + Moon 13.5 (The Fellowship of Man – The Savior), conjunct Dennis's Personality Moon 13.6.
- **Effect:** Sun 59.4 seeks friendship and shared values as the path to intimacy. Moon exactly on his defined 13 (G-center) amplifies the Channel of the Prodigal (33-13), heightening the need for reflection, remembrance, and the witness role. Line 5 brings the projected "savior" or universalizing quality to the listening/identity process.
- **Difficulty:** The friendship drive of 59.4 can pull the hermit into more social contact than is sustainable. The 13.5 savior projection may attract people seeking guidance or rescue, burdening the Role Model.
- **Resolution:** Use the heightened 33-13 to retreat and reflect before responding to any "friendship" invitation. Only offer the witness/listener role when the sacral is a clear yes. Protect the 6th-line Role Model expression by limiting exposure to those who do not demand saving.
- **Bridging Effect:** Moon conjunct the defined 13 powerfully reinforces the existing Prodigal channel inside the Single Definition, while 59.4 offers a clean, values-based bridge for selective connection that supports rather than fragments the Migration journey.

### Thursday, August 27, 2026

- **Key Transit Activation:** Sun 59.5 (The Femme Fatale/Casanova) + Moon 30.6 (The Clinging Fire), conjunct the transiting North Node 30.6 / South Node 29.6.
- **Effect:** Sun 59.5 carries the magnetic, often idealized or seductive role in breaking barriers for union. Moon on 30 intensifies the emotional wave of desire and the recognition of feelings, linking to the nodal axis of commitment (29) and feeling (30).
- **Difficulty:** The 59.5 magnetism can create intense attractions or projections that feel larger than life, potentially overwhelming the hermit's need for space. The 30 wave may bring emotional highs and the pressure of unfulfilled desire.

## Dennis Transit Report: August 20–28, 2026

- **Resolution:** See the magnetism as genetic role, not personal destiny. Wait out the emotional wave before any decision. Return to defined Community (40-37) and Rhythm only when the sacral is quiet and clear. Hermit time is essential for the Role Model to stay clean.
- **Bridging Effect:** The 59 activation continues to condition the Sacral while the 30 links into the nodal theme, temporarily weaving desire and commitment energies into the Single Definition without opening a split. It clarifies what (and who) truly belongs on the Migration path.

### Friday, August 28, 2026

- **Key Transit Activation:** Sun 59.6 (The One Night Stand) + Moon 63.2 (After Completion – Qualifying).
- **Effect:** Sun 59.6 brings the transitional, often fleeting quality to intimacy roles—the recognition that not every connection is meant to last. Moon in 63 (Head/Ajna logic) activates the pressure to doubt, question, and seek logical completion or proof.
- **Difficulty:** The “one-night” frequency can leave residual confusion about whether something should continue. Head/Ajna pressure may generate mental loops about past or potential connections, pulling the hermit out of present response.
- **Resolution:** Allow the transitional nature of 59.6 to release what is complete. Do not force logical certainty (63); trust the sacral. Use defined 33-13 for private review of the week’s experiences so the Role Model integrates the lessons without mental over-analysis.
- **Bridging Effect:** Closing the 59 cycle feeds the final transitional energy into the defined Sacral, completing a temporary intimacy theme within the Single Definition. The 63 activation briefly conditions the open Head/Ajna, offering logical perspective that can be witnessed and released through the Prodigal channel, keeping the overall definition coherent and supporting continued Migration with clearer discernment.

Throughout these days the slow Jupiter transit in 33 continues to emphasize Dennis’s defined Prodigal channel, reinforcing the value of retreat and remembrance as the primary way to integrate all temporary activations. Limited or selective exposure remains the correct strategy for the 6/2; let sacral response be the only gatekeeper for any interaction.

## Dennis Transit Report August 20–28, 2026

### Thursday, August 20, 2026

- **Effects:** The Sun at 29.4 activates the Gate of Saying Yes with the keynote of Directness—the power to commit to the simplest and most direct process. This lands in the Sacral, amplifying his Design Sun at 5.2 (Inner Peace: the power to be comfortable with one’s fixed rhythm and the projection of natural tempo). The North Node at 30.6 (Enforcement: the discipline to maintain right action and the strength to eliminate negative feelings) together with transit Pluto at 41.2 presses the Root and, through his defined Solar Plexus, intensifies the emotional wave already carried by his Personality channels 35-36 (Transitoriness) and 12-22 (Openness). Mercury at 4.2 activates mental formulation pressure in the undefined Ajna. Expanded example: as a 6/2 Manifesting Generator on the Left Angle Cross of Migration, the Directness of 29.4 meets his 37.6 Purpose (the deep yearning for something greater than the mundane family or community). He may feel a clear sacral pull toward a practical commitment that

## Dennis Transit Report: August 20–28, 2026

promises both rhythmic stability (5-15) and a larger sense of meaning, while the 6th-line Role Model quality observes whether the commitment truly serves the migration of spirit beyond ordinary tribal bonds.

- **Difficulty:** The Directness of 29.4 can feel crude or overly blunt when filtered through the 6/2 Hermit-Role Model projection; others may experience his straightforward sacral yes as abrupt. The 30.6 Enforcement theme risks emotional selectivity that rejects ordinary community experiences, creating tension inside his defined 37-40 Channel of Community. Undefined Root and Ajna receive the 41 and 4 activations as inconsistent pressure, potentially disrupting the fixed rhythm of 5.2.
- **Resolution:** Honor the sacral response before any commitment solidifies. Use the Inner Peace of 5.2 to stay inside the natural tempo rather than forcing the Directness. Allow the 30.6 discipline to name and release inferior feelings so the Purpose of 37.6 can orient toward what is truly larger than the immediate community.
- **Bridging Effect:** Transit 29/30 and 41 temporarily define Root pressure and link it into the already defined Sacral and Solar Plexus, expanding the Single Definition outward. Gate 4 softens the open Ajna, giving mental form to the emotional and rhythmic currents without permanently altering the core definition.

### Friday, August 21, 2026

- **Effects:** Sun advances to 29.5 (the power of commitment that can over-extend resources). Moon moves to 26.1 (The Egoist), activating Ego-center themes that resonate with his defined 40. Mercury at 4.5 continues Ajna pressure. The ongoing Node axis at 29/30 and Pluto at 41 keep the Root-to-Solar-Plexus frequency alive. Expanded example: the 6/2 Role Model may feel an amplified drive to provide resources or leadership within community structures (37-40), yet the 29.5 theme tests whether the commitment is sustainable inside his fixed rhythm (5-15). The Personality channel of Openness (12-22) can become more expressive, while the Crisis channel (35-36) registers the emotional cost of any over-extension. Purpose (37.6) asks whether the effort serves something beyond ordinary familial or tribal maintenance.
- **Difficulty:** Over-commitment risk is high; the Manifesting Generator sacral can say yes to more than the Single Definition can comfortably sustain, especially with undefined Root receiving 41 pressure. Moon in 26.1 can inflate Ego expectations that the defined 40 then feels obligated to fulfill, producing wave turbulence in 35-36 and 12-22.
- **Resolution:** Apply the 2nd-line Hermit quality of the Profile—withdraw enough to test the commitment against the body's actual rhythm (5.2). Let 30.6 Enforcement purge any feeling of obligation that does not carry Purpose. Return to the defined G (15) for the larger migratory orientation.
- **Bridging Effect:** Continued Root activation via 41 and Node 30 expands the Single Definition by temporarily linking pressure centers into the emotional and will centers. Ajna pressure via 4 remains soft and non-structural.

### Saturday, August 22, 2026

- **Effects:** Sun at 29.6 (transition within Saying Yes). Moon enters 10.1 (Behavior of the Self—Modesty). This activates his Design hanging Gate 10.2 and interacts with the defined G center (15 and 13). Mercury moves into 29.1, further loading Sacral yes-energy. Nodes and Pluto continue the 29/30/41 frequency. Expanded example: the sudden presence of Gate 10 in the G can bring a clear behavioral orientation to his already defined Rhythm channel (5-15) and Prodigal channel (13-33). As a 6/2 on the Cross of Migration he may experience a modest, almost understated correctness in how he moves

## Dennis Transit Report: August 20–28, 2026

through the day; the Role Model quality observes whether this behavioral clarity serves the larger migration of purpose (37.6) beyond ordinary community roles. The Openness channel (12-22) can express this modest truth with unusual fluency.

- **Difficulty:** Activation of hanging 10 can make the undefined aspects of identity feel temporarily solid, then drop away, creating a sense of inconsistency for the Single Definition. The 10.1 Modesty may underplay the power available through the defined Ego and Sacral, leading to missed invitations that would have been correct.
- **Resolution:** Trust the sacral response that now carries clearer G-center orientation. Allow the Modesty of 10.1 to keep expression clean rather than inflated by the 6th-line projection field. Stay inside the fixed rhythm of 5.2; do not force the behavioral clarity into premature action.
- **Bridging Effect:** Gate 10 activation temporarily strengthens G-center definition and links it more vividly into the Throat (via 13-33 and potential 10 pathways), expanding the Single Definition's sense of direction and identity without creating a true split.

## Sunday, August 23, 2026

- **Effects:** Sun jumps to 59.1 (Sexuality / the spirit's need for intimacy and the breaking of barriers). Earth at 55.1 (Spirit / Abundance). Moon at 38.2 (The Fighter) activates his Personality hanging Gate 39.6, bringing the potential of the Channel of Emoting (39-55) or Struggle themes. Nodes remain at 29/30. Expanded example: the Manifesting Generator may feel a sudden urge to break through emotional or intimate barriers in service of something larger (37.6 Purpose). The defined Community channel (37-40) becomes the testing ground for whether intimacy can carry spiritual abundance (55). The 6/2 Role Model observes the struggle (38/39) for signs of whether the fight itself is meaningful or merely reactive. Crisis (35-36) and Openness (12-22) register the emotional intensity with heightened sensitivity.
- **Difficulty:** 59.1 combined with hanging 39 activation can produce restless intimate or emotional pressure that the defined Solar Plexus amplifies into a strong wave. The Single Definition may experience the urge to act from the Sacral before the emotional clarity of the wave has settled, especially with undefined Root and Spleen receiving the fighter pressure.
- **Resolution:** Wait for the sacral response that is free of emotional urgency. Use 30.6 Enforcement to eliminate inferior feelings early. Channel any Fighter energy into physical or creative movement that honors the fixed rhythm of 5.2 rather than relational combat.
- **Bridging Effect:** Activation of 39 with transit 55 creates a temporary emotional-Root link that expands the defined Solar Plexus and Ego outward. The 59-55 axis directly feeds the already defined emotional centers, intensifying but not fracturing the Single Definition.

## Monday, August 24, 2026

- **Effects:** Sun at 59.2 (caution and restraint within Sexuality). Moon moves to 61.3 (Inner Truth—the pressure of mystery). This activates the undefined Head with individual knowing pressure. Nodes and Pluto continue. Expanded example: a mutative, almost silent pressure to know something essential about purpose (37.6) may arise. The 6/2 Role Model can feel the Hermit quality deepen as the Head receives 61; the defined Throat channels (12-22, 13-33, 35) wait for the right moment to express whatever clarity eventually surfaces. Rhythm (5-15) continues to provide the stable backdrop against which the mystery is lived.

## Dennis Transit Report: August 20–28, 2026

- **Difficulty:** Undefined Head plus 61.3 can generate mental noise or the sense that a crucial truth is just out of reach. The 6th-line projection field may attract others who expect the Role Model to already embody or articulate that truth, creating performance pressure on top of the emotional wave.
- **Resolution:** Do not force the knowing. Allow the individual pressure of 61 to process in its own timing while staying inside the Inner Peace of 5.2. Let the defined Spleen (if any transit support appears) or the emotional wave itself indicate when expression is correct.
- **Bridging Effect:** Head activation remains temporary and non-structural; the core Single Definition is undisturbed. Residual emotional and Root frequency from the Node axis continues to offer a soft expansion of the defined centers.

### Tuesday, August 25, 2026

- **Effects:** Sun at 59.3 (energy that can be indiscriminate in intimate seeking). Moon at 41.4 (Contraction—the pressure of decrease and focused desire) lands on the same Root gate already pressed by transit Pluto. This maximizes Root pressure into the defined Solar Plexus via the Node 30. Expanded example: desire contracts sharply toward only those experiences or connections that promise both rhythmic correctness (5-15) and a sense of larger Purpose (37.6). The Manifesting Generator sacral may feel a clear, narrowed focus; Community (37-40) and Openness (12-22) become selective rather than expansive. The 6/2 Role Model watches to see whether the contraction itself is part of the migratory process or merely a defensive narrowing.
- **Difficulty:** Strong Root pressure combined with 59.3 can create restless hunger that rejects ordinary community or intimate experiences. The emotional wave (35-36, 12-22) may rise and fall more dramatically as the undefined Root receives intense activation.
- **Resolution:** Honor the contraction—allow Gate 41 to decrease options until only the correct sacral response remains. Apply 30.6 Enforcement rigorously. Protect the fixed rhythm of 5.2 by limiting how many demands are allowed into the day.
- **Bridging Effect:** Peak Root activation via 41 and 30 creates the strongest temporary expansion of the Single Definition this week, linking pressure directly into the emotional and will centers and giving the defined system a fuller, more pressurized field.

### Wednesday, August 26, 2026

- **Effects:** Sun at 59.4 (brotherhood/sisterhood within Sexuality—intimacy that serves a larger bond). Moon at 13.5 (The Listener) activates his Personality Moon Gate 13.6 and the defined Prodigal channel (13-33). Expanded example: the Role Model may find himself in the position of the deep listener whose presence draws stories and secrets; the 6th-line quality observes and eventually models what has been heard. The defined Throat expresses with the Openness of 12-22, while Community (37-40) evaluates whether the shared material serves the larger migratory purpose. Rhythm (5-15) keeps the listening grounded in natural tempo rather than obligation.
- **Difficulty:** Heightened 13 activation can leave him holding others' experiences without clear boundaries, especially with the open Head and Ajna. The emotional wave may rise as more is absorbed than the defined Solar Plexus easily processes in the moment.
- **Resolution:** Listen only when the sacral responds. The 13 does not require advice or fixing. Use the Hermit quality of the 2nd line to withdraw when the field becomes too full. Stay inside the Inner Peace of 5.2.

## Dennis Transit Report: August 20–28, 2026

- **Bridging Effect:** Strong activation of the already defined 13-33 channel reinforces G-to-Throat definition and, together with residual Root and emotional frequency, keeps the Single Definition expanded and coherent.

### Thursday, August 27, 2026

- **Effects:** Sun at 59.5 (the seducer / the one who can be seduced—powerful attractive force). Moon returns to 30.6, exactly conjunct the North Node, maximizing emotional recognition frequency into the defined Solar Plexus. Expanded example: a magnetic quality can arise around the Purpose of 37.6; others may feel drawn to the Role Model as someone who carries both community warmth and a larger spiritual orientation. The Manifesting Generator power is available through the Sacral and Ego, while Crisis (35-36) and Openness (12-22) register the emotional intensity of being seen in this way. The fixed rhythm of 5.2 becomes the quiet center that keeps the magnetism from becoming chaotic.
- **Difficulty:** The combination of 59.5 and peak 30.6 can pull him into dynamics that look ideal but lack true sacral correctness. The 6th-line projection field may attract expectations that he embody a finished Role Model before the process is complete, creating wave turbulence.
- **Resolution:** Strict sacral authority—only yes when the body itself responds, never from the magnetic field alone. Use 30.6 Enforcement to purge any feeling that is not clean. Protect the rhythm of 5.2 by limiting access.
- **Bridging Effect:** Maximum Node and Moon activation of 30, combined with 59 influence on the defined emotional and Ego centers, produces a robust temporary expansion of the Single Definition, linking pressure, emotion, and will into a highly coherent field.

### Friday, August 28, 2026

- **Effects:** Sun at 59.6 (transition within Sexuality—the potential for the spirit to move beyond the personal). Moon at 63.2 (Doubt—the logical pressure to question patterns) activates the undefined Head with collective mental pressure. Nodes remain. Expanded example: a sense of completion or release around intimate and community themes may surface. The 6/2 Role Model can feel the migratory process itself shifting; Purpose (37.6) asks what has been learned and what is ready to be left behind. The defined channels of Community, Openness, Prodigal, Crisis, and Rhythm provide the lived data that the 63.2 Doubt now reviews. The fixed rhythm of 5.2 offers the stable ground from which any transition can occur.
- **Difficulty:** Undefined Head plus 63.2 can generate second-guessing of the week's sacral decisions. The Role Model projection may attract others who expect certainty or explanation before internal clarity has settled.
- **Resolution:** Allow the doubt to be information rather than paralysis. Return to the body and the Inner Peace of 5.2 for what remains correct now. Honor any transitional quality of 59.6 by releasing what no longer carries Purpose. Rest the sacral after the intensity of the week.
- **Bridging Effect:** The Node axis continues to offer Root-to-Solar-Plexus expansion. Head activation remains non-structural. The cumulative effect of the week's activations leaves the Single Definition temporarily enriched and more permeable, available for conscious integration through correct Strategy and Authority.
